

10-20-2009

To the president of the United States of America

**A WARNING OF GREAT TRIBULATION ON THIS NATION**

Dear Mr. President Barack Obama,

I Gary Stowers, a true witness of the great God Almighty am very concerned about the state of the union. I hope you won't discredit this letter before you read it, and consider what I have to say. I realize that you are a very busy man, and this world is full of crack-pot prophets, but I do have knowledge of things that are about to take place that should sober and concern every man, woman, and child in this great country. There is a time of great tribulation to come on all of the end time tribes of Israel that Gods true prophets have warned of since the days of Moses. This great trouble is coming on us fast, and in our days. There is coming great pain and suffering on our peoples. God says that it is greater than any trouble that has ever fallen on any nation. (Daniel 12: 1) Jesus also says that there will never again be such a great time of tribulation on this earth. (Matt. 24: 21) In verse 22 Jesus says that it will be so bad that if those days were not shortened, there would be no flesh saved alive! That is now possible with the nuclear, and biological weapons that nations have. Jesus continues on in verse 29 to let us know that God is going to shorten those days with frightening signs in the heavens, followed by the second coming of Christ. The prophets of God reveal that this tribulation will cause one third of our people to die from famine and disease, another third will die in war, another third will be scattered into the winds and God says that he will draw out a sword after them. (Ezek. 5: 12) You should read the first seven chapters of Ezekiel; and understand that this was written many years ago, but it is about to be fulfilled in our day on all twelve tribes of the house of Israel. That includes our great nation!

Most of the people on earth seem to think that when the bible speaks of Israel at the end time; that it is referring to the little nation of Jews over in the nation called Israel. The truth is that those Jews are only a very small part of Israel. There were twelve tribes of Israel, and the Jews are primarily made up of the tribe of Judah, Benjamin, and Levi. You may not believe me at first, but the United States of America and Great Britain are the modern day descendants of the tribe of Joseph. Joseph received the birthright blessing from God that was passed down from Abraham to Isaac, and on to Jacob, whose name was changed to Israel, and then on to Joseph. Joseph had two sons named Ephraim, and Manasseh. Ephraim is the kingdom of Great Britain and its former commonwealth of nations. Manasseh is the United States of America. I don't have space here in this letter to prove all of the things here, but there is a book written by one of Gods true apostles to this end time age, which will give proof of what I say here. That book is "The United States and Britain in Prophecy," written by Herbert W. Armstrong. I won't even try to write a letter long enough to attempt to prove what I say here by the Holy Bible, because most people will not believe it until it happens. But when it happens, then you will know that a true prophet of God has warned you, as the leader of our nation; you and this nation will come in remembrance before the Great God, whom they won't obey now.

Our peoples have been blessed with the lion's portion of this world's wealth, and, we have been given dominance in this world since the early eighteen hundreds; not because of our wisdom and might nor our righteousness. But because of God keeping his promise to Abraham concerning the birthright blessing on his sons, God has blessed us while we continued in grievous sins. Very few people on this earth today actually understand their bibles, because they refuse to be corrected; but God is about to let some enemy nations come against us to humble us, that at the end, some may be corrected, and learn the way of true happiness, peace, and prosperity, and that they may learn of their God ordained destiny to become real children of the God family. God Almighty don't expect me to correct the nations of Israel, but only to warn them so that they may know who will give them the truth straight and plain after God has humbled them through the hellish conditions that are coming.

I will tell you here some very specific prophecies that the word of God says is soon going to happen in this world that will affect the wellbeing of our nation. I also plan here in this letter to show you why God has already withheld his blessings on our nation, and why he is allowing our peoples to be punished by gentile nations, famine, and disease epidemics. God help you to be wise and heed this warning, and warn this nation, with your power and authority.

First of all, remember, we did not make ourselves, nor did we make the earth, or the universe that this earth is rolling through. We are a creation; we simply find that we do exist. Mankind in our modern "*enlightened*" age refuses to acknowledge Gods existence, or his right to rule his creation, but man is very soon going to be humbled by the great Creator God, and that is for our ultimate good. Even the religions of this world, and this nation, don't know the true God. The Almighty Creator God has a wonderful purpose for mans existence, of which most of mankind is in complete ignorance of. It was part of God's master plan to let man experiment and try his own ways of what he thought would be right, and wrong, (*good and evil*) and find out for their selves that their ways would only produce evil in the long run. Man rejected God and his wisdom back in the Garden of Eden, so God sentenced man to try their way apart from their Creator. Man has done awesome things in the material, physical realm, but when it comes to relationships with one another they have brought nothing but sorrow, pain, suffering, anguish, hurt, heartache, division, strife, hate, and destruction. The marriage institution and family that God ordained is almost completely destroyed. People are vile in their affections, and lusts; they are divided selfishly against one another. The character of the people is getting much worse in every generation. Today most marriages end in divorce. Children are rebellious against their parents, and all law and authority. Everyone is pulling in his or her own direction. Everyone is trying to take advantage of one another. There is no real honesty in business dealings. There is no real peace between the nations, just as there is no peace and unity in the families. All people do hurtful things against one another while they pursue their ideas of happiness. Then they wear a cloak of lies and deception to try and hide their true character from each other. No one likes being used, and having offences committed against their self, so this way of living

destroys the possibility of peace and unity. The problems all come from man refusing to honor their Creator God and live by his commandments. Our nation won't even allow Gods commandments to be posted on government property. But if you will examine the Ten Commandments carefully you should see that they are only designed for the good and wellbeing for all of us. Even the religious people who profess to respect the Ten Commandments; they also deliberately reject the commandment of keeping the seventh day Sabbath Holy and not working on that day. They don't see that it makes any difference which day one keeps, so they just continue on in the old pagan Sunday worship, which is in violation of Gods commandment. Even those religious people don't really know, or believe the true God. They also don't practice even the righteousness that they preach, and hear preached. The ministers are selfish, greedy dogs that are swindling the people out of their money. As you are well aware of Mr. President, our nation is giving more favor and "*rights*" to people who practice the abomination of homosexual behavior, than they do to preachers freedom of speech when they show that the true God condemns such behavior. God help our nation wake up!

As I mentioned above, the family unit as God designed it to be is almost completely destroyed in our society today. One of the major root causes of this evil is the accepted and promoted wicked sexual behavior of both heterosexuals as well as homosexuals. Every aspect of our society uses sex, and lust to sale their products, and promote their ideas and movies, and entertainment. Adultery and fornication is considered to be desirable. Young girls are so deceived by this evil society, that they don't want to grow up to be decent wives and mothers; they want to pattern their lives after the popular sluts of our society. Pornography is considered as "*adult entertainment*". Our society doesn't see the harm of this wickedness. Husband's lust against their wives, and wives lust against their husbands. This lust leads to adultery, and is responsible for most divorces. A marriage can't work when the people don't have Godly character to resist selfish and lustful behavior and temptations. Rather than control themselves, the people choose to condemn the Law of God! Every aspect of our nation seems to support and promote this immoral, ungodly sexual behavior. It is no wonder that

God is starting to punish this ungodly nation for its sins. Sin may very well be pleasant at the moment, but all disobedience to God will produce hurt, suffering, pain, heartache, broken homes, and all of its evils, along with strife, mental anguish, and even murders. Our evil society has become so selfish that women think they have the “*Right*” to murder their unborn children. Rather than face the hard cold facts, they prefer to call it abortion. What an ungodly and selfish, and evil nation we have become! Sins of lust, vanity, greed, and selfishness are the real root causes of wars. You can’t sin and get away with it. Sin will collect its dues. That is why the Almighty Loving God gave us his Laws in the first place, to help us avoid these pitfalls. The world’s religions talk about having eternal life; but God will not allow anyone to be given eternal life if they choose continually to live in sin; the way to all of mans misery, heartache, division, and strife.

God gave his laws to our forefathers when he brought them out of slavery in Egypt, and made them his own chosen nation, with the intent that they would reveal the wisdom and righteousness and love of their God to the rest of the world, by the way they lived, and prospered, and was blessed by their God and his wisdom, but they refused to live by Gods law, so God let them be taken into captivity and spread them through the nations of this world. They have lost their identity because they wouldn’t keep Gods seventh day Sabbath, and now think they are gentiles. But at this near end of the world God has gathered us, the descendants of Joseph’s children in Great Britain and the United States, to bestow on us the birthright promise of great wealth and power, and dominance which he had unconditionally promised to Abrahams children. God has kept his promise, but we, as the recipients of Gods choice blessings have not obeyed God, and his Holy Righteous Laws; therefore we are losing all of God’s blessings.

Because of our continued increase of sins and destructive behavior, God is taking away all of our blessings! Our nation is headed for disaster! So also is all of the Israelite nations, including Great Britain, and its former commonwealth of nations, and the tribe of Judah over in Israel also! This Israelite people have corrupted themselves more than the ignorant heathen nations of this world who have never had the true God for their helper. Our peoples seem to think that Satan’s way of selfishness, lust, greed, vanity, and competition is the way to

happiness. Satan's ways are about to be exposed to our people so that, what God calls sin will appear as sin. We are about to see Satan's face with no deceptive cloak over it!

What is coming on the Israelite nations? Famine and disease epidemics will kill about one third of our people. Another one third will die in war. Another third will be scattered through the other nations as slaves, and refugees, and will pine away for their sins. When this Tribulation comes to pass then many from all nations will sincerely repent and turn to the true God and his Commandments. God will protect them to some degree, while God then punishes the evil nations that have persecuted them. God is about to bring an end to sins on this weary sin sick earth. Jesus Christ is soon going to return to take over all governments and kingdoms and establish his Holy Kingdom here on earth. All nations will be forced to submit to obey Him and his saints. Then this earth will at last enjoy peace and prosperity. Then God can fulfill his purpose for putting man on this earth. God has a wonderful plan to correct us humans and then when our hearts are truly converted, and proved, then God can give man eternal life and we can actually be born again as the very children of God. I don't expect you to believe this at this point, but soon you will. When the things I tell you about here in this letter are come to pass, then you will know that I am a true witness of the Great Almighty God. God's purpose will stand. No man or nation can change it.

Here are some specific things that you can expect to happen. This financial crisis in our nation will only get worse. There will be a complete financial collapse in the United States. The European Union will be united under one dictator. There will be ten nations in Europe who will give their kingdoms over to a dictator who will also be dominated over by the pope. They will temporarily solve their financial crisis by taking over the oil rich nations of the Middle East. They will be the end time revival of the so called Holy Roman Empire. Libya and Ethiopia will be some of the first nations that will be taken. This may start out under the disguise of stopping terrorism. They will then force the Catholic religion on the whole world. Since they will control the world's oil supply, they will have leverage over all nations. The Pope will make sure that policy will be set so that all nations and people, who want to carry on commerce with them, will comply with their

religious teachings. Sunday observance is the mark of the Beast. They will lay waste the United States of America. Our cities will be destroyed, and burned. Our people will be taken into captivity. The proud and haughty will be humbled, and laid low. The lofty and lusty looks of our women will be brought to fear and shame. Men will be stricken with grief and fear, at seeing what is coming on them, and from losing everything that they trusted in and loved. Men will be bowed over with pain in their bellies as a woman in travail.

Mr. President, you may reject this message, and consider like many others that I am just a prophet of gloom and doom; but this message is inspired by that Great God that holds our planet out here in the universe. The same God that called Moses, Elijah, Isaiah, Jeremiah, Peter, Paul, John, and all of the rest of the Holy prophets and Apostles; he also called me, and has taught me these things and much more. I don't like to hear a message of gloom and doom either, but it is the sins of our nations that is bringing on us the gloom and doom. I as Gods true witness am trying to warn this nation, that they may avoid this doom and gloom. Real true and sincere repentance and surrender to obey all of Gods laws and words is the way out of this hellish mess that we have brought on ourselves. God help our nation and its leaders wake up and heed this warning!

The only hope for anyone is for each individual to repent of their rebellion against the Great God and his laws, and start obeying God. I know this is a hard thing for you to believe, but you will believe when it happens. I have no pleasure in seeing this evil come on our nation, but God knows that when it is accomplished it will yield good fruits in the end of those who will be corrected. Soon sin that has caused us all much heartache and suffering will be brought to an end. After God has used this evil empire to punish his Israelite people, then God will pour out his wrath on those wicked people. I suggest that you save this letter and read it when these things happen. God hates sin, but he loves his people and hopes that they will repent and be spared from the results of their sins. I do love the people of America and for that matter the entire world, but I hate their sins, for they destroy us. Jeremiah the prophet, in chapter nine reveals the character of our peoples. God save Israel!

Gary Stowers
